EDUCATION

2020-2024

JNTUH MANTHANI

- Bachelor of Technology
- Electrical and Electronics Engineering
- CGPA 7.7
- Year of Graduation : 2024

2018-2020

TSRJC SARVAIL

- Intermediate
- Percentage 97.3

2017-2018

Singareni Colleries High School Manuguru

- 10th Class
- CGPA 9.5

SKILLS

- HTML,CSS,BOOTSTRAP
- SQL
- JAVA
- PYTHON
- JAVA SPRINGBOOT
- GIT, GITHUB

OBJECTIVE

Aspiring software developer with a strong foundation in web development and cloud computing, seeking a challenging position to utilize and expand my skills in software development, cloud deployment, and full-stack development. Committed to continuous learning and contributing effectively to a collaborative team environment.

PROFESSIONAL SUMMARY

Enthusiastic and dedicated engineering graduate with a solid background in web development, cloud computing, and software engineering principles. Currently enhancing skills through a comprehensive Java Full Stack course at NxtWave. Proficient in HTML, CSS, Bootstrap, SQL, and JavaScript frameworks like React.js and Node.js. Experienced in deploying Java Spring-Boot applications on AWS EC2 instances, configuring server environments, and managing deployments using Git and GitHub. Strong problem-solving skills, attention to detail, and a passion for continuous learning and innovation. Possesses a basic knowledge of cloud computing and is eager to apply and expand this knowledge in a professional setting.

PROJECT EXPERIENCE

Customer Management System

Technologies Used

React.js, Node.js, Express, PostgreSQL, git, GitHub

Description

- **Developed a PostgreSQL database** to store and manage customer records, including serial number, name, age, phone number, location, and timestamps.
- **Created a RESTful API** using Node.js and Express for efficient CRUD operations.
- **Designed a React.js single-page application (SPA)** to display customer data with search, pagination, and sorting functionalities.
- **Enhanced data readability** by separating timestamps into distinct date and time columns.

GitHub Repository

LEADERSHIP AND EVENT COORDINATION

- Organized and led "Technopark" technical fest, inspiring students to present 18 innovative tech ideas, earning accolades from faculty and guests.

CORE COMPETENCIES

- Self-motivated and adaptable
- Strong logical thinking and problem-solving skills
- Keen interest in learning new technologies and industry trends
